CALL FOR ABSTRACTS

ON WWW.IMCAS.COM

JOIN US ON THE IMCAS STAGE, AND SHARE YOUR EXPERTISE WITH A WORLDWIDE AUDIENCE!

The IMCAS Scientific Board welcomes all findings related to dermatology, plastic surgery or aesthetic procedures. Abstracts can be entered in the format of an e-poster and/or oral presentation and should fall under one of the four following types:

FREE COMMUNICATION

Shows complete independence towards any industry and is free of any bias

INDUSTRY LECTURE

Involves a brand's participation

RESEARCH & DEVELOPMENT

Deals with an innovative product or device still in the development research phase and not yet commercialized

NEW TECH

Presents an innovative product or device commercialized on the market for less than 18 months

ABSTRACT SUBMISSION MUST RESPOND TO THE FOLLOWING CRITERIA:

- Abstracts can only be submitted electronically through our website and will be reviewed by the Scientific Board.
- Abstracts and presentations must be in English.
- Abstracts will be reproduced as submitted by the author. Content may be rejected if it does not feature actual data or is poorly drafted.
- The submitting author must ensure that his/her biostatement is filled in.
- Only previously unpublished abstracts will be considered for presentation, that is to say not published elsewhere nor submitted for presentation at another national meeting within the 6 previous or 6 following months.
- By submitting an abstract, the author agrees to fully disclose any conflict of interest. Failure to disclose commercial support may lead to a rejection of the submitted abstract.

PARIS 2022: ADVANCE TOGETHER

After a year of waiting, the best in dermatology, plastic surgery, and aging science is finally getting together again in Paris!

The 23rd edition of IMCAS World Congress returns for the first time as a hybrid congress at the Palais des Congrès in Paris and online, from January 27 to 29. Join us in person for the congress experience that you've missed! Or, there's also the possibility to follow the congress online via www.imcas.live and live stream all sessions from wherever you are.

This grand reunion is the revival of the "classical congress" with 10 rooms running parallelly on 2 levels, however, it will be anything but conventional. Along with the 15 key themes in dermatology, plastic surgery and aging science, the scientific program includes brand-new elements designed to refine your medical knowledge and treatment techniques, like the multi-source live transmissions from around the world to all over the world!

This edition places a special focus: echography for aesthetic treatments, AI & robotics to upgrade your practice, discerning controversies & managing complications, understanding what

male & female patients want in 2022, and more. Look through the pages of this program for the new formats, new topics, and new techniques that are waiting for you in Paris.

What helps us maintain and deliver such high-quality content in physical congresses and digital courses is, as always, the scientific collaborations we have with academic societies and partners around the world, not to mention the world-renowned expert speakers who bring their experience and expertise. The scientific programs are the tangible results of the synergy that takes place when IMCAS and our scientific partners join forces.

Your professional development can continue outside the sessions. Be sure to stroll through the exhibition that's open all three days of the congress to catch up and exchange with leading industry representatives about their latest products and devices.

So, join us for our physical return home! Let's celebrate this reunion by sharing our perspectives, knowledge, and advance into 2022 together.

TOPIC SERIES

BODY SHAPING

Get new perspectives in body shaping! Be sure to attend the “Battle” between top experts where they present their tried-and-true approaches for fighting cellulite, and follow-up with the “Product Analysis” session that objectively compares devices for body shaping.

COORDINATORS: KLAUS Hoffman, SADICK Neil

• Male

The Male Treatments series give a detailed coverage from head to toe of how to achieve the best results for your male patients. For those interested in male body shaping, don't miss the session on the Male Body Quest.

COORDINATORS: BRAZ Andre Vieira, LIM Ting Song

BODY SURGERY – BUTTOCKS **ON AIR**

This year's body surgery sessions pay special attention to buttocks augmentation, from implants to fat graft.

• ^{IMCAS} Surgery BUTTOCKS focus course with live

LIVE Aesthetic Surgery session targets beginner to advanced levels with one full afternoon dedicated to this procedure. Explore new learning tools and key take aways from around the world.

COORDINATORS: ABS Richard, CAVALCANTI RIBEIRO Ricardo, GONZALEZ Raul

BREAST SURGERY

• Complications (IMCAS Alert)

Learn from difficult cases, as is seen from IMCAS Alert ! Join this session for an interactive experience.

COORDINATORS IMCAS ALERT: LIU Daniel, NAHABEDIAN Maurice

CELL THERAPY, REGENERATIVE & FAT GRAFTING

• PRP

Join these sessions to find out what innovations took place in the field and the latest clinical use of PRP.

COORDINATOR: MAGALON Jeremy

• Lipofilling

The topic series of lipofilling covers in an afternoon new trends and what's hot in 2022

COORDINATORS: COHEN Steven, MAGALON Guy

CLINICAL DERMATOLOGY

One of the pillars in the IMCAS scientific programs, the clinical dermatology sessions cover a variety of skin diseases such as hypo- and hyperpigmentation, skin cancer, melasma, acne and scars, along with updates on dermoscopy and dermatologic surgery.

COORDINATORS: BENZEKRI Laila, COGREL Olivier, HAEDERSDAL Merete, LALLAS Aimilios, ROSSI Anthony, WOLKERSTORFER Albert

• Complications (IMCAS Alert)

COORDINATORS IMCAS ALERT: ROSSI Anthony, SADEK Ahmed

COSMECEUTICALS

As a popular topic in aesthetics, skin aging and cosmeceuticals have many myths and false-information that follow. Find out from the world's best physicians and researchers about what's new, what's true, what's trending and what's controversial in the field.

COORDINATORS: ADHOUTE Hertsel, DESAI Seemal, DU CREST Dominique

ECHOGRAPHY **NEW** **ON AIR**

From assessing the anatomy and danger zones to analyzing and managing complications, the role of this handy tool is becoming indispensable in aesthetics. Get familiar with ultrasound through various sessions, like the optional course that gives in-depth look at the use of echography for injectables, for pre-, post- surgical procedures or at the Echography Village where you can get "hands on" experience with the devices.

FACE SURGERY **ON AIR**

Esteemed plastic surgeons provide the tools and maneuvers to help you perfect your surgical techniques for rhinoplasty and other facial procedures.

• ^{IMCAS} Surgery NECK focus course with live

There is a special focus this year on surgical neck rejuvenation, including a LIVE Aesthetic Surgery session with live surgery from an operating theater.

COORDINATORS: COHEN Steven, KESTEMONT Philippe

FUTURE TECH

• AI & robotics

Get a glimpse of the future with concrete evidence (not science fiction) on the role of artificial intelligence and robotics in aesthetic practice.

• New tech and R&D

Early adapters, this topic is for you! The sessions on new tech and R&D bring together the products and devices in development that will shake up the field.

GENITAL TREATMENTS

• Female

The comprehensive curriculum for female genital treatments covers surgical and non-surgical approaches to vaginal corrections with a special emphasis on the role of regenerative medicine, such as microfat, PRP and SVF.

COORDINATORS: BRAZ Andre Vieira, LIM Ting Song

• Male

Sessions on genital treatments extend to male patients as well, with top speakers sharing their knowledge on penoplasty and minimally invasive penile treatments.

COORDINATORS: BRAMBILLA Massimiliano, LESHUNOV Evgenii

• Complications (IMCAS Alert)

COORDINATORS IMCAS ALERT: NUWAYHID Marwan

HAIR RESTORATION

A wide range of hair restoration sessions await you this year, from hot topics like Hair and Covid-19 to complex alopecias and surgical transplantation. Be sure to sign up for the paid video course on hair restoration for more a technical teaching format.

COORDINATORS: BOUHANNA Pierre, DESAI Viral, VANO GALVAN Sergio

INJECTABLES

This popular topic is treated in various teaching formats designed to help you understand not only its potency and promises, but also the dangers that could arrive.

• Anatomy on Cadaver Workshop **ON AIR**

These IMCAS-signature Workshop combines LIVE cadaver dissections with LIVE treatment procedures so that you can have the underlying anatomy right next to the demonstration on a patient.

COORDINATORS: ASCHER Benjamin, KESTEMONT Philippe, LANDAU Marina

• Toxins

Find all you need to know on botulinum type A and other toxins through expert debates, product analysis and other dynamic formats.

COORDINATORS: LANDAU Marina, RZANY Berthold

• Male

Injection treatments for male patients is a whole other ballgame! Deepen your understanding of what men want and learn how to achieve the face they want with fillers and toxins.

COORDINATORS: BRAZ Andre Vieira, LIM Ting Song

• Complications (IMCAS Alert)

Expert speakers provide you with tools to navigate back to safety when face with vascular complications, inflammatory complications and other difficult situations.

COORDINATORS: FEINER Ronald, RUDENKO Igor

LASERS & EBD

Experienced experts from universities, learned societies, laboratories and companies lead you into the world of lasers, energy-based devices and their vast applications.

• Complications (IMCAS Alert)

IMCAS experts present and analyze a selection of clinical cases from IMCAS Alert – our complications forum – so that you can learn from the experience of others and walk out with the tools to assess, avoid, and manage complications with lasers & EBD.

COORDINATOR: BADAWI Ashraf

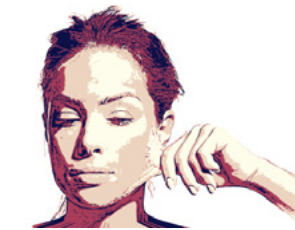

• Scars

The sessions on scars are results of international collaborations between prestigious academic societies who bring you the latest evidence-based knowledge on treating scars with lasers & EBD.

COORDINATOR: ARTZI Ofir

• Live demonstrations

See the latest machines in action during the live demonstrations, and ask your questions directly to the designers.

PEELINGS, MESOTHERAPY & NEEDLING

From early prevention to late intervention, explore how to safely incorporate peeling to your practice and deliver rejuvenating results to patients.

COORDINATOR: KREYDEN Oliver

PROFESSIONAL BUSINESS

The sessions related to this theme is an all-encompassing curriculum that ranges from clinic management to online presence to market analysis, so you can get a clearer grasp of all the economic situations of the field and make the smart decisions that will help you thrive.

• Practice management & marketing

Covid-19 has shifted a major of our daily interactions to virtual, so it's crucial to understand just how much of an influence this shift to virtual has on your practice. How do patients search online for physicians? How should I address pre-juvenile patients? Could the shift to virtual trigger a sense of dysmorphophobia? Find out what the latest research says from top experts of the field.

COORDINATORS: ABEL Doug, PAVEL Hilbert

• Global Market Summit

The Global Summit series is an “event within an event” that invites the leaders of the industry, CEO's and KOL's to share with you the insights and analytics that are normally for the executive's eyes only.

COORDINATORS SHARK TANK: AVRAM Matthew,

DU CREST Dominique, ORTIZ Arisa

COORDINATORS IMCAS TRIBUNE: ANTUNES Humberto,

ASCHER Benjamin, ECKHOUSE Shimon

COORDINATORS INVESTORS FORUM: ASCHER Benjamin,

BRONES Laurent, CHIGNON Thierry

THREADS

From the studying the anatomy and analyzing products to novel techniques and complications management, the sessions dedicated to threads are here to help you tighten your grasp on the subject.

COORDINATORS: FUNDARO Salvatore, HUANG Patrick Po Han

YOUNG PHYSICIANS (DERM AND SURGEONS)

The Young Physicians sessions are tailored towards young doctors who are about to embark on their career! Young Physicians can learn from world-renowned faculty, and experienced professionals can learn about exciting new research taking place in universities now by the bright young minds of the next generation during the Young Awards.

COORDINATORS IMCAS YOUNG DERMATOLOGISTS:

INFO

FROM THE INDUSTRY

SYMPOSIA

A symposium is an in-depth presentation session taking place in the auditoriums during which sponsoring companies showcase their newest developments, promoting to a large audience all their products, innovations and techniques through lectures and video presentations. Symposia can include live demonstrations and are of various durations.

LIVE DEMONSTRATIONS

Broadcasted from a specialized medical treatment room, the live demonstration are composed of consecutive 20-minute demonstrations that allow you to see the products and devices in injectables, threads, lasers & EBD action on stage! Unlike symposia, live demonstrations are moderated, enabling a critical viewpoint to the products or devices shown.

TRAINING LABS

The training programs are specifically designed for small groups of 10 to 15 attendees in a private, medicalized training room. Activities include hands-on opportunities, oral presentations or demonstrations on a patient, all of which are trainings so you can understand the full potential usage or the company's devices and products.

HOSPITALITY SUITES

Hospitality suites are company-tailored conference rooms where KOL speakers share their experience and techniques about the hosting company's products. The seclusion of the suites along with the beverages and refreshments served create a relaxed environment that stimulates exchange and discussions. Please visit the company booth if you wish to receive an invitation.

INDUSTRY GUEST LECTURES

These 15-minute talks by industry representatives take place on the Open stage within the exhibition area, emulating a convivial and interactive environment that incites fruitful discussions. Check our website for the updated list of lectures.

SPONSORED SESSIONS AT-A-GLANCE

The informative sessions are prepared by the sponsoring companies who wish to present their latest products and devices in dynamic formats. Choose among a variety of sessions sponsored by a diverse range of companies. The content of these sessions is not endorsed by IMCAS.

WHO'S IN CHARGE?

The organizing company is responsible for the content of a sponsored session, as well as keeping the scientific integrity and compliance with all regulations for ethical practice. The organizing company manages the selection of the materials, speakers and scientific integrity of the session for sponsored activities other than live demonstrations.

WHO CAN ATTEND?

Symposia, live demonstrations and industry guest lectures are open to all badge holders, however access to training labs and hospitality suites are granted by the organizing company. Stay tuned and check our website for updates about the training labs and hospitality suites available for this year's congress.
