WELCOME

Looking Towards the Future of Aesthetic Science

IMCAS World Congress 2023 welcomes you to this extraordinary 24th edition, leading the advancement of dermatology, plastic surgery, and aging science.

Amidst an era of innovation and rapidly evolving medical science, the expansion of medical and surgical aesthetics requires modern training that is scientifically credible, medically-based, and responsive to modern patient needs. This edition of IMCAS World Congress works to revolutionize medical specialty education with a curative emphasis on the implementation of new technology, safe methods of practice, and scientific transparency.

This year's scientific program mirrors these objectives, exploring a wide range of topics and new formats among the 15 key themes. We anticipate an expansive course program that awaits you over the next 3 days, including all the latest methods and techniques to modernize your practice.

The distinct Live Anatomy on Cadaver Workshop combines live injection procedure with cadaver dissection for a complete and comprehensive look at injection techniques. We also continue to explore the application of ultrasonography with injection for an in-depth look on how to avoid complications.

Likewise, the IMCAS Surgery Course brings a rare look into the latest surgical procedures from around the world, presented

alongside cadaver dissections. This year's format will feature the anatomical dissections by the surgeons themselves, so you can truly understand and implement procedures through the mind of an expert.

The surrounding program continues to explore all the relevant subjects that are present in today's practice. Our clinical dermatology module is larger than ever, examining the full pathological scope of the skin—from diagnosis to treatment—while sessions on injectables and toxins continue to explore a wide selection of courses in filler for the face & body, as well as complications, future, and off-label uses. Full-day modules on practice management, hair restoration, female genital treatments, and cosmeceuticals, are further dedicated to bringing the latest cutting-edge research to innovate and inspire the future of your work.

To complement, the bustling exhibition hall welcomes a global network of more than 300 industry leaders to exhibit their technologies, devices, and new products reshaping the aesthetic market in the coming year.

We are proud to present this 24th edition, of high-quality sessions and medical content, providing you with the best specialty education for your field. #Jointhefuture, as we embrace the rising work of dermatology and plastic surgery and begin the year looking ahead.

THE IMCAS SCIENTIFIC BOARD

HONORARY PRESIDENT & FOUNDER

Benjamin Ascher
Plastic Surgeon
France

COURSE DIRECTORS

Hugues Cartier
Dermatologist
France

Sebastien Garson
Plastic Surgeon
France

COURSE COORDINATORS

COHEN Steven
Plastic Surgeon
United States

HAEDERSDAL Merete
Dermatologist
Denmark

KESTEMONT Philippe
Facial Plastic Surgeon

 YAVUZER Reha Plastic Surgeon, Turkey
 ZEESHAN Saman Urooj Dermatologist, UAE
 ZEIN ALABIDDEN Marwa Pharmacologist, Lebanon

THE IMCAS IMPACT

EDUCATION

Connect, compare, and learn the latest science and groundbreaking techniques from international experts and the IMCAS Scientific Board.

SAFETY

Learn verified, preventative methods that consider treatment risks and complication management for both existing and new clinical treatments.

TECHNOLOGY

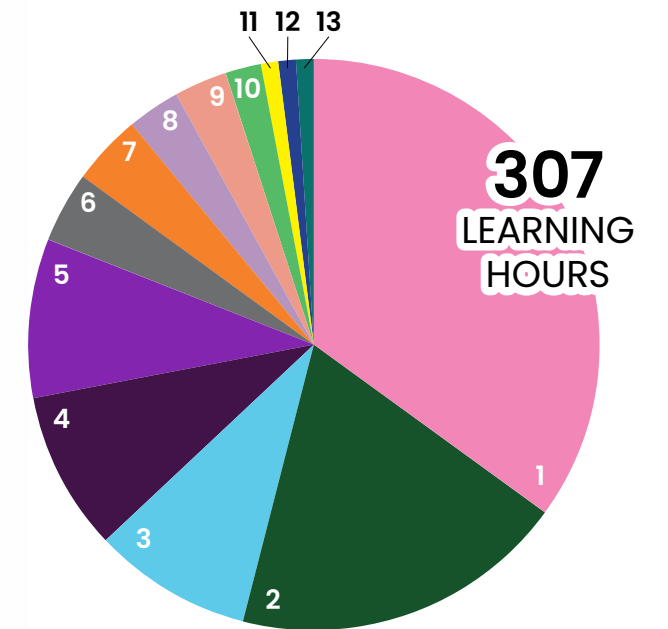

Discover the new applications of medical technology and explore the future of treatments including robotics, AI, and the innovative work of industry startups.

ETHICS

Navigate the ethics of aesthetic treatment, the complexities of bedside manner, and where to draw the line in treatment to maintain patient well-being and satisfaction.

TOPICS OF THE PROGRAM

These themes explore specific methods and tools in each treatment area, to allow for physicians to receive a specialized treatment education within their medical specialty. Each of the program sessions fall within one or more of these themes and present the latest practical updates through interactive formats.

- 1** Injectables (fillers & toxins)
- 2** Lasers & EBD
- 3** Clinical dermatology & dermatologic surgery
- 4** Surgery
- 5** Cosmeceuticals
- 6** Cell therapy, regenerative & fat grafting
- 7** Marketing & professional business
- 8** Threads
- 9** Genital treatments
- 10** Hair restoration
- 11** Body shaping
- 12** Future tech (new tech, R&D, AI)
- 13** Peelings, mesotherapy & needling

PROGRAM KEY

Under an unrestricted educational grant

Sponsored session

LIVE DEMO
Live demonstrations of products/devices

ON AIR
Live procedures alongside anatomical displays

Contributing lectures

OPTIONAL COURSE
Requires additional fees

Sessions colored according to topic

YOUR FULL PROGRAM

IMCAS DESTINATIONS

Don't finish your congress experience here! Take advantage of these upcoming learning opportunities. We hope to see you there!

IMCAS ASIA JUNE 9 TO 11, 2023 • BANGKOK

Get ready for a striking 16th edition back in Bangkok! In the center of Thailand's aesthetic capital, discover the latest updates in dermatology, plastic surgery, and minimally invasive procedures with leading experts in Asia and from around the globe. Join us this June as we shape the practice of tomorrow. Book your badge ahead and register until April 9, 2023 to get early bird rates!

IMCAS AMERICAS JULY 20 TO 22, 2023 • CARTAGENA DE INDIAS

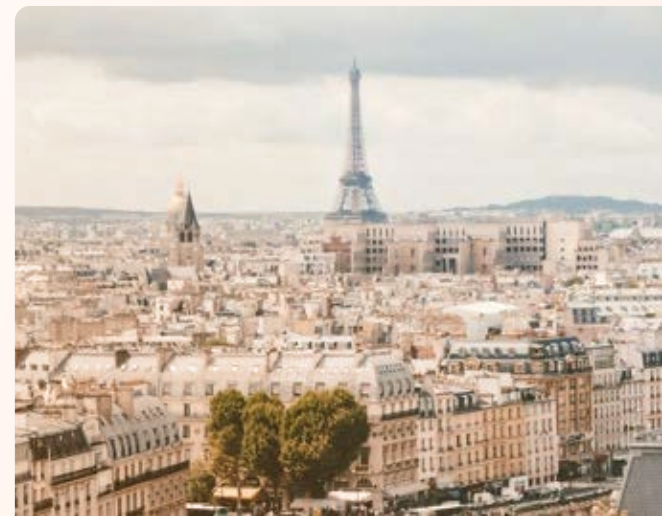

Returning to the beautiful city of Cartagena, this 5th edition captures the heart of aesthetic science with regional and international experts who gather to upgrade your skills on the most relevant surgical & non-surgical topics in today's practice. Cultivate your curiosity and expand your knowledge with us in Colombia. Book your badge ahead and register until May 20, 2023 to get early bird rates!

IMCAS AMERICAS 2024 • BRAZIL

For 2024, IMCAS Americas will venture to the vibrant country of Brazil! We are excited to gather international specialists to provide a fun and fresh look at the latest updates and trending techniques in a variety of specialty treatments. Join this hallmark edition and dive in on the latest topics in this aesthetic city.

IMCAS WORLD CONGRESS FEBRUARY 1 TO 3, 2024 • PARIS

Returning to our home city, IMCAS World Congress 2024 will be back to Paris to start off the year with clinical updates. As one of the largest educational congresses in dermatology and plastic surgery, it is the place to be for all the latest information and innovation in specialty aesthetics. Be sure to join us again next year for another astonishing edition!

LIVE ANATOMY ON CADAVER WORKSHOP AT IMCAS WORLD CONGRESS 2023 JANUARY 26 TO 28 • PARIS

Taking Our Largest Stage
Bigger and better, this year's workshop will be hosted in the Grand Amphitheatre!

Knowing where to inject, understanding the underlying anatomy, and identifying potential danger zones are crucial for practitioners to deliver optimal injection results. The IMCAS-signature Cadaver Workshop combines live cadaver dissections, live procedure demonstration, and ultrasonographic imaging for a unique and side-by-side learning experience.

THURSDAY 26 JANUARY 2023

10 AM - 12 PM FOREHEAD, TEMPLE & PERIORBITAL
Forehead, glabella & temple, Periorbital, Tear trough

1:30 - 3:30 PM MIDFACE, NOSE & LIPS
Midface, Nasolabial fold, Zygomatic malar, Lips

4 PM - 6:30 PM LOWER FACE & BODY
Jawline, Chin & profile, Lower face, Buttocks, Hands

View details here

IMCAS WORLD CONGRESS 2023

PLAN YOUR DAY

JUNE 3 FRIDAY
 Start off your World Congress experience with the distinguished IMCAS Cadaver Workshops. Focusing on procedures for the face and body, alongside anatomical dissections and ultrasonography mapping, these sessions equip you with the skills for procedures with incisions and threads to satisfy the needs of your patients. A wide range of sessions will fulfill your interests in hair restoration, lasers, threads, injectables, and pedicles. The Innovation Tank will introduce the best startups in the medical aesthetic field. For the plastic and facial plastic surgeons faculty, see the live surgeries performed alongside anatomical dissections for an in-depth, practical approach for surgical learning.

JUNE 4 SATURDAY
 For day two, be sure to check out our sessions focusing on male treatments. Head don't miss out of the extensive clinical dermatology research. Also Surgery Course continues on the second day with a focus on breast implants in the morning and gluteal augmentation in the afternoon. In our sessions on lasers, there will be exciting live demos all day. Finally head over to The Investor Forum & The World Economic Tribune to meet the leading industry representatives and CEOs for a full market update.

JUNE 5 SUNDAY
 The final day of the congress will have a variety of sessions aimed towards our young physicians (IMCAS Young) to provide them opportunities to learn from the best in area-specific sessions. This is a unique component in our program to bridge the gap in inter-generational practice. There will also be an extensive program on female genital treatments, from anti-aging to gynecomasty. Don't miss out on the full day module dedicated to lip-filling techniques and innovations, and morning sessions on FRP. The live demos on our final day will touch on everything injectables, and additional sessions will also be happening on vascular complications, profiloplasty, and injectables for neck and facelift. An exciting way to finish out your congress experience!

Find out more on each topic that will be covered throughout the congress by browsing through pages 22 to 41 of this program!

PROGRAM KEY

- Under an unrestricted educational grant
- Sponsored session
- IMCAS
- Live demonstrations of products/devices
- ON AIR
- Live procedures alongside oral/visual displays
- Contributing lectures
- Optional course
- Requires additional fees
- Sessions tailored according to topic

ANATOMY & AESTHETIC TREATMENT CLASS
Focus on simulator injections & ultrasonography

24-25 JANUARY 2023
HYATT REGENCY PARIS ETOILE

Seats are limited!
REGISTER ON [THINKIN.FR](https://thinkin.fr)

online only: **1,000 USD***
on-site lectures only: **1,700 USD***
on-site lectures & hands-on: **3,200 USD***

*Early bird prices until December 23, after which 10% increase

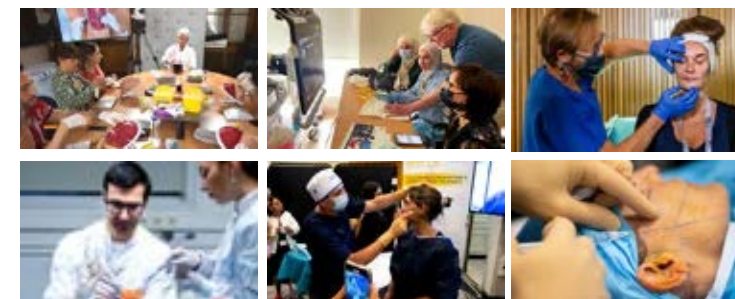

A two-day VIP training just before IMCAS World Congress 2023!

Discover the disruptive hands-on formats of the THINKIN Class in Paris driven by Dr Benjamin ASCHER and his amazing faculty of dedicated experts.

This training class is designed to help you **improve your anatomical knowledge & treatment skills for HA, toxins, and threads** to deliver safe and satisfying results to your patients. And it's open to all levels of practitioners!

Led by a team of world-renowned physicians, this intimate yet high-end class presents rotating workstations that go through **dissections, LIVE demonstrations, HANDS-ON simulator injections, and HANDS-ON ultrasonography.**

You can discover the **3D injection simulator** used with the F.A.S.T. (Facial Aesthetic Simulator Training) Method, which offers a close to real-life injection experience that replicates the anatomical layers and textures down to the detail.

Organised in collaboration with
CUTANEOUS - COTOFANA ANATOMY
With unrestricted educational grants from

LUMENIS

SKIN RESURFACING - AGING SKIN & TRAUMATIC DAMAGE

How to use different techniques and technologies
for specific skin concerns and skin types

 LUMENIS AT IMCAS  WE ARE THRILLED TO INVITE YOU TO OUR EXCLUSIVE SYMPOSIUM 

JOIN US ON SATURDAY 28TH OF JANUARY FOR
AN ENRICHING SYMPOSIUM
8:30 AM - 10:00 AM | ROOM 351 - LEVEL 3

**Dr. Matteo Tretti
Clementoni**

A board-certified plastic surgeon and member of many global societies. He has previously focused on pediatric malformations and severe burn scars. Currently primarily focuses on cosmetic procedures and laser treatments.

Dr. Tapan Patel

A cosmetic dermatologist and the director of PHI clinic based in London, UK. He specialises in all aspects on non-surgical aesthetic procedures and in particular light and laser therapies, skin of colour treatments and scarring.

ENGAGING DISCUSSION & INSIGHT ON

- Ablative vs non-ablative - when to use which one?
- How to choose the right technology?
- How to increase revenue and patient intake?
- Can multiple sessions of non-ablative reach the same outcome as one ablative session?
- How to treat complicated cases?
- Skin resurfacing patient management and expectations (physician and patient) in both cases of ablative and non-ablative
- Patient success stories
