Celebrating 25 Years of Science & Innovation

Over the years, IMCAS has consistently served as a premier center of science, innovation, and collaborative exchange in the fields of dermatology, plastic surgery, and aging science. We believe that true learning emerges from the ongoing efforts of our community, and today, we are proud to be the leading medical education event to foster inter-specialty and international practices. As we celebrate 25 years since the founding of IMCAS, we are delighted to present an edition that reflects the cutting-edge progress of modern clinical and aesthetic treatments with our ever-growing worldwide faculty, partners, and attendees.

This year's edition encompasses an extensive selection of topics and breakthrough treatments, both fundamental and trending in today's specialty work. Grounded in science, safety, ethics, and new technology, our program covers updates clinical dermatology, the full scope of minimally invasive procedures, upcoming regenerative science, and new surgical techniques within a high-quality learning environment. Each session is curated to shape a modern skillset set to anticipate complications and promote optimal treatment outcomes, with special attention to treatment ethics and relevant, ongoing debates in our fields.

The IMCAS signature sessions also return to the Grand Amphitheatre with demonstrations from our esteemed selection of experts, to support a thorough understanding of anatomical structures and aesthetic procedures. The Live Anatomy on Cadaver Workshop overlays live injection and thread techniques with cadaver dissection for a complete study of safe and effective minimally invasive methods. For surgery, the unique format of the Live Augmented Surgery & Anatomical Dissections provides unparalleled surgery education and training by exploring the fundamentals of underlying anatomy with the latest plastic surgery tools and techniques.

Beyond the exceptional scientific content, the World Congress offers a wealth of experiences and networking opportunities to facilitate meaningful connections and partnerships. Discover an unmatched exhibition featuring over 350 international companies, engage with innovative products, forge business alliances, establish lifelong professional relationships, and attend sessions in collaboration with scientific societies.

As we embark on a momentous occasion, it is your involvement that fosters a future of medical knowledge and aesthetic procedures founded in patient care and scientific discovery. We wish you a warm welcome to the IMCAS World Congress 2024 as we create and celebrate the new standard of tomorrow's specialty care.

Let the learning begin!

IMCAS, IMCAS, READ ALL ABOUT IT

For the first time in IMCAS history, we are releasing a magazine: IMCAS Insider! We have picked the brains of leading physicians to provide insights on the latest advancements in the field. Grab a copy, hot off the press, available now at La Place!

IMCAS ALERT

Take part in real-life interactive scenarios sent in from all around the globe! IMCAS Alert will be on the ground, equipped with the means for attendees to weigh in and respond to the medical issue at hand. Come visit booth L217 on Level 2!

MEDICINE IS SUSTAINABLE, AND SO ARE WE!

IMCAS is proud of the impact we are making to create positive and sustainable changes in our logistics, education, and scientific communities. Sustainability is a marathon and we are on track for the long haul. Discover the IMCAS IMPACT in our program breakdown, the INSIDER Magazine, and at the Sustainability booth R301A.

WHEEL OF FORTUNE

Come to La Place to win from an abundance of prizes, such as a collector-edition IMCAS Anniversary tote bag, badges to other IMCAS Congresses, a free 1-month Academy subscription, and more. Everyone can play for a chance to win!

OPENING CEREMONY

The IMCAS World Congress's official opening ceremony will take place this Thursday at 09:30 at the Grand Amphitheatre. Join in on the celebration!

TRIVIA QUIZ

An IMCAS congress wouldn't be complete without its beloved Trivia Quiz! Test your mettle against your peers, located at booth R353 on Level 3.

NETWORKING COCKTAIL

Unwind and expand your network in one fell swoop at the Networking Cocktail. Top off the second full day of the congress by connecting and discussing topics with fellow practitioners over refreshments, held this Friday at 18:00 at La Place!

DELEGATE RAFFLE

Some lighthearted fun with serious prizes, the only requirement to play is to drop off your completed raffle ticket in the dedicated box! Come see how your odds play out on Friday at 15:30 at booth L202 on Level 2! Tickets can be found at the back of each program.

IMCAS works with the European MedTech Code of Ethical Business Practice in order to ensure the promotion of strong business relations and integrity in our educational healthcare events.

WHAT IS CME?

CME, or Continuing Medical Education, is a system of accreditation, for bodies such as the EACCME® (European Accreditation Council for Continuing Medical Education) or the AMA (American Medical Association). Please contact the national authorities of your practicing country with your Certificate of Attendance to validate the European CME credits and convert them to your corresponding accreditation system.

For more information on how to obtain your certificate of attendance, please consult our General Information.

PROGRAM BREAKDOWN

SCIENTIFIC SESSIONS

IMCAS takes pride in providing information entirely based on medical research. Non-sponsored session content is constructed by the IMCAS Scientific Board and any partnering academic societies, dedicated to ensuring that there are no biases or influences from commercial bodies. These sessions are eligible for CME accreditation.

SCIENTIFIC SESSION UNDER AN UNRESTRICTED EDUCATIONAL GRANTS

NON-SPONSORED

A way for companies to offer financial support, these sessions remain in the non-sponsored category due to educational grants, which are financial donations with no exchange partnership at stake. The scientific content of a granted session is developed entirely by the IMCAS Scientific Committee and is eligible for CME accreditation.

CONTRIBUTED TALKS NON-SPONSORED

Contributing sessions are presentations led by experts who have submitted their abstract for review and have been selected by the Scientific Board for the quality of their scientific content. These sessions cover a variety of themes, and while insightful, they are fully developed by the lecturer and therefore not endorsed by IMCAS. You can find them at the Open Stage or in designated rooms in the scientific program.

SPONSORED SESSIONS

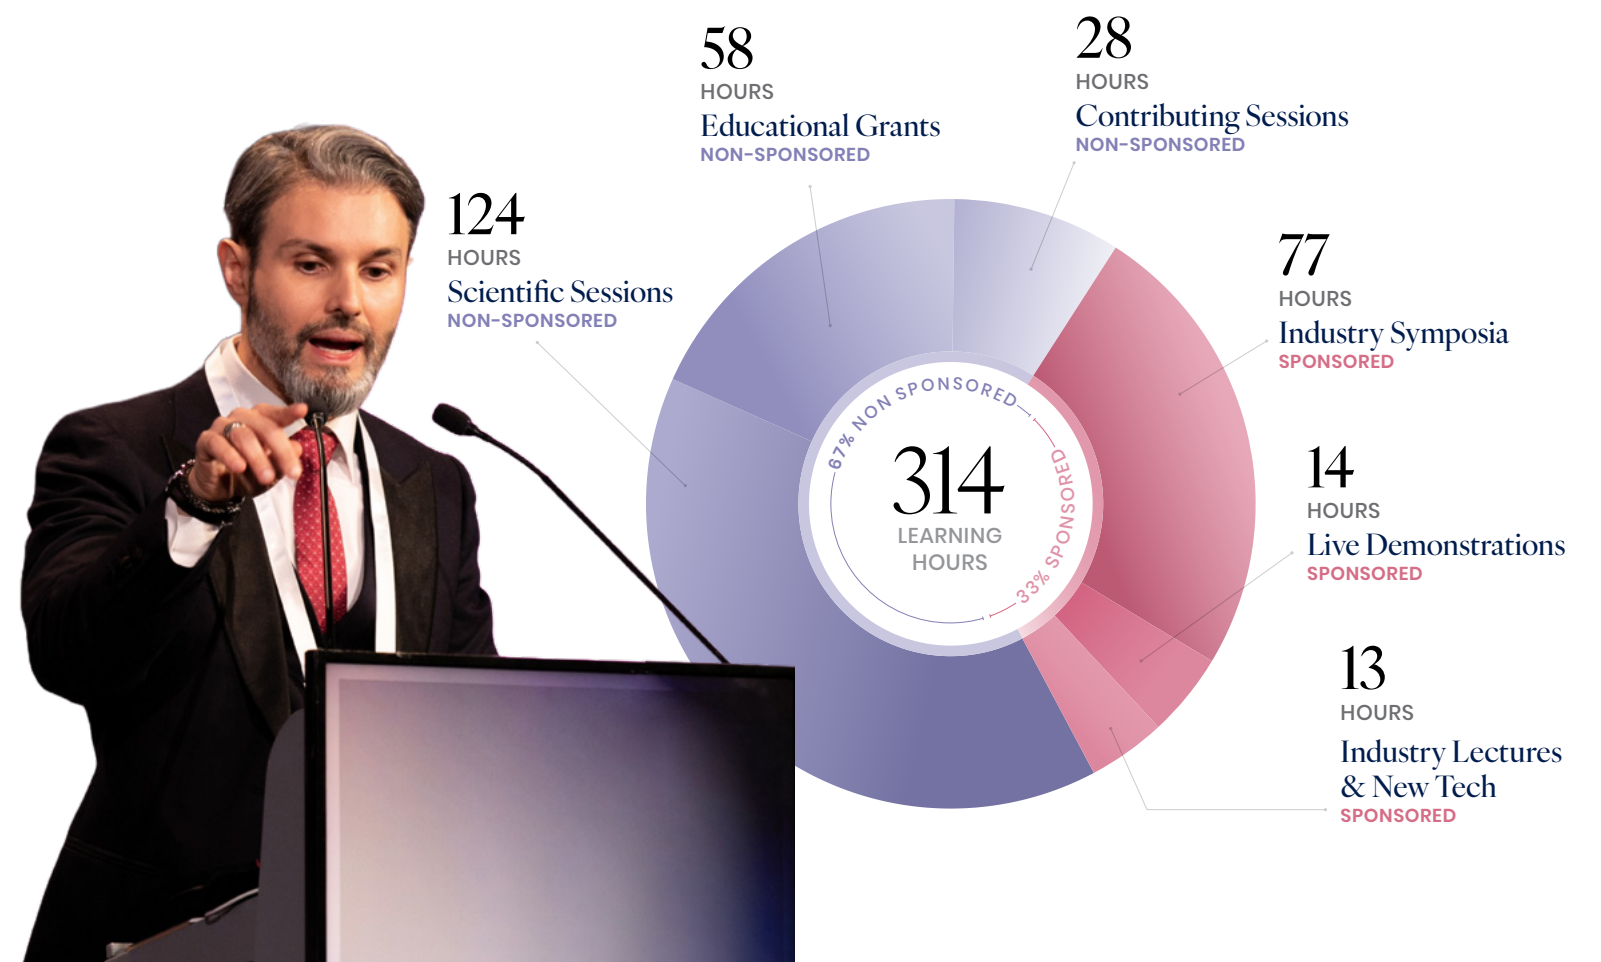

Commercially sponsored, these sessions promote a product or activity on the behalf of the sponsoring company. Sponsored sessions can provide valuable information, but the content is neither developed nor endorsed directly by IMCAS. These sessions are not eligible for CME accreditation, and in accordance with IMCAS' COI policy, they are explicitly identified within the program.

INDUSTRY SYMPOSIA, LIVE DEMONSTRATIONS, NEW TECH, AND INDUSTRY LECTURES

SPONSORED

These sessions are categorized as sponsored by the industry and the provided content is under the purview of the partnering company.

CELEBRATING 25 YEARS OF GLOBAL INNOVATION

IMCAS continues to pave the way to the future of specialized medicine

The 2024 World Congress program is brimming with the latest advancements and topics in dermatology, plastic surgery, and aging science. Stay ahead of the curve by attending sessions to find out about upcoming treatment options, safety procedures, advanced techniques, and much more!

LIVE ANATOMY ON CADAVER WORKSHOP

SIGNATURE SESSIONS **THURSDAY** **GRAND AMPHI**

Knowing where to inject, understanding the underlying anatomy, and identifying potential danger zones are crucial for practitioners to deliver optimal injection results. The IMCAS-signature Cadaver Workshop combines live cadaver dissections, live procedure demonstrations, and ultrasonographic imaging for a unique and side-by-side learning experience.

INNOVATION TANK

SIGNATURE SESSIONS **FRIDAY**

AMPHI HAVANE - 10:30 to 12:30

The Innovation Tank is an opportunity for start-ups to pitch their unique ideas and demonstrate how they will uniquely solve a problem in the fields of dermatology, plastic surgery, aesthetics, and cosmeceuticals before a jury of industry leaders and investors.

ORGANIZED IN COLLABORATION WITH

PAST WINNERS - AWARDED INNOVATIONS

2021 HAIRSTETICS WWW.HAIRSTETICS.COM

The Hairstetics Hair Implant Device is a multi-hair implantation tool, with an anchoring system developed to provide unmatched, non-surgical, "no downtime" treatment for alopecia and hair loss. Hairstetics is focusing on bringing a unique solution to women with androgenetic alopecia and the rest of the alopecia-affected population.

2022 AVAVA WWW.AVAVAMEDICAL.COM

Dark-skinned individuals constitute most of the world's population, with largely ineffective treatments for their skin conditions. AVAVA's transformative 3D laser platform is based on a novel mechanism of action that brings cellular level precision to aesthetic medicine. AVAVA's versatile platform enables safe, comfortable treatment across multiple clinical indications, including excess pigmentation in darker skin types, a market expected to reach 7.23B by 2026.

2023 FASTOX WWW.FASTOX.CH

Siss-based biotech, Fastox is preparing for a phase I/II clinical trial with FTP-501, a proprietary formulation which, when combined with botulinum toxin products (BoNT), demonstrates faster onset, increased efficacy and longer duration of action. The Fastox research team discovered a unique way to enhance botulinum toxin's activity with no effect on the fundamental properties of BoNT. Preclinical work has validated the use of FTP-501 with the key BoNT products marketed worldwide.

2024 WHO WILL BE THE NEXT WINNER?

IMCAS FUND

The IMCAS Fund mission statement is to further the advancements of science, sustainable innovation, and research in dermatology, plastic surgery, and aging science.

“Research is fundamental to achieving development in the dermatological and plastic surgery fields, and the importance of development in these fields cannot be overstated. The symbiosis between medical researchers and practitioners should be encouraged, for together we grow as a community and support medical research, which in turn will help practitioners better serve their patients.”

Dr Peter VELTHUIS, DERMATOLOGIST, PhD, Netherlands

The IMCAS fund is a non-profit organization whose purpose is to receive and manage funds to finance selected projects.

EDUCATIONAL GRANTS

SORTED BY TOPIC AND DATE

Our educational grants are financial contributions that IMCAS receives from partnering institutions and medical organizations with no exchange partnership at stake. These donations provide support for the educational and impartial research we present and are subject to review and approval by the Scientific Board, therefore falling under the category of non-sponsored sessions.

GENERAL INFO

ACCIDENTS, DAMAGES, & LOSSES

IMCAS and the Palais des Congrès are not responsible for any damages and/or losses that may occur during the official conference and social programs. All Congress attendees participate at their own risk and are advised to insure themselves against any loss, accident, or damages that may occur during the conference. Verbal agreements are not considered binding, unless confirmed in writing.

ACCREDITATION

European CME credits are available for all medical specialists (and may vary depending on EACCME® regulations and country of practice). Please contact specific national authorities to learn to validate your European CME credits or convert the credits to their accreditation system. To learn more about obtaining CME credits, please refer to page 22.

- European Accreditation Council for Continuing Medical Education (EACCME®) / 20 CME Credits, Event code: LEE2023-01721
- The MedTech Europe Code of Ethical Business Practice sets strict, explicit rules regarding the industry's relationship with Healthcare Professionals (HCPs) and Healthcare Organizations (HCOs), including arrangements with consultants, research, and financial support for medical education. MedTech Europe Code of Ethical Business Practice / Event Reference: EMT36646

BADGE ACCESS

IMCAS welcomes all professionals active in the world of medical aesthetics, including physicians and all related professional bodies. Access to conference rooms is restricted to each respective badge category and the verified medical specialty of each participant.

The purchase of a badge in an individual's name is nontransferable. All badges must be scanned to confirm verification before entering a specific area. Please refer to the registration form for badge categories, access type, and the IMCAS cancellation policy.

CERTIFICATE OF ATTENDANCE

Delegates, faculty, and contributing speakers can obtain a Certificate of Attendance at the end of IMCAS World Congress 2024. Each registered participant is asked to fill in the online evaluation form within the next 30 days on www.imcas.com. Once submitted, the certificate of attendance will be made available for download.

CHARGING STATIONS

IMCAS ASIA 2024

Welcome

Returning to Bangkok to Revolutionize Dermatology and Plastic Surgery Education

For another spectacular year, IMCAS Asia 2024 will gather for our 17th edition to explore the leading science and innovation among the region's hub of Bangkok. A center for specialty medicine, we are excited to launch another year to study the cutting-edge clinical and aesthetic treatments with our outstanding physician network and an international faculty of experts.

Our upcoming scientific program covers a broad selection of trends and topics relevant to today's clinical practice, from technical science through the latest industry innovation. We partner with regional and international societies to foster the exchange of accredited resources to provide a program that is knowledge-based, while also fostering a world-renowned exhibition of leading brands to gather the top representatives in the market. In this way, we offer a unique learning experience, that is both accredited and responsive to the latest market trends, while upholding complete scientific transparency.

IMCAS Asia is open for all registrations and bookings! Join us for another transformative event with the brightest minds in dermatology, plastic surgery, and aging science to reshape the future of aesthetic treatments and modern clinical practice.

Check in your hold baggage directly at the congress venue

We are pleased to support your travel journey by first getting your luggage out of the way.

Alltheway service allows you to drop off and check in your baggage directly at the Palais des Congrès during IMCAS World Congress 2024 and have it delivered directly to your final destination, while travelling on the same plane.

Between H-24 and H-3 before your Air France or Skyteam flight, and from €25 for the 1st bag and €10 per additional bag, this service allows you to reserve a 10-minute slot to check in your baggage in the dedicated area on Level 0 of the congress venue.

Benefits:

- Save at least 1 hour by avoiding queues at the check-in counter and directly access security gates at the airport
- Have more flexibility on your schedule and travel hand-free to the airport
- Track your baggage in real-time and board your flight with peace of mind
- Book now at <https://www.alltheway.io/> (only available for Air France et Skyteam flights)
