*Updated list on IMCAS.COM*
We are thrilled to announce that we have teamed up with THAICOSDERM (Thai Society of Cosmetic Dermatology and Surgery) in the bustling city of Bangkok.

Located in the heart of Southeast Asia, the capital of Thailand is the world leader in plastic surgery and aesthetic dermatology. Bangkok is very meaningful to IMCAS for another reason: it was here that we hosted the very first IMCAS Asia congress back in 2007!

We are delighted to return to the origins of IMCAS Asia, this time in partnership with THAICOSDERM, to welcome over 140 international speakers and 45 local speakers for 150 teaching hours, with more than 1,500 attendees arriving from all over the globe.

This year, our program is full to the brim with all of our most notable courses and lectures. 15 key themes covered in 3 full educational days, there is something for every aesthetic practitioner. This edition of IMCAS Asia features surgical and non-surgical sessions with an overarching focus on Asian morphologies and how to achieve the most natural results.

After three intensive days engaging in all of our cutting-edge events, relax and get to know your peers better with our Networking Cocktail on Friday evening and our elegant Gala Dinner on Saturday evening.

Bangkok is home to a vibrant culture steeped in tradition, a place where modernity and tradition blend together. It is easy to see why we are returning for the third time, because Bangkok is the perfect setting for a weekend filled with the latest developments in the medical aesthetic field.

Welcome to IMCAS Asia 2018 joint event with ITCAM of THAICOSDERM in Bangkok.

**Genital Treatments**
The hot topic in aesthetic medicine with 4 hours on Friday.
THE RENOWNED GENITAL TREATMENT MODULE RETURNS AT IMCAS ASIA 2018!

Taking place on the first day of the congress, this module has been designed in collaboration with a number of learned aesthetic gynecological and genital restoration societies.

The genital treatment module will explore a range of treatments and techniques for genital restoration, from non-invasive to surgical treatments.

There will be opportunities to explore both the male and female anatomy in depth during the Video anatomy on cadaver workshop: female & male genital treatments session, as well as sessions dedicated to cultural aspects and their implications on patients and treatment methods.

Finally, the module will tackle a number of challenging subjects for this sensitive area, including menopause, surgery and complications.

Not a gynecologist? Not a problem! The sessions are open to all physicians interested in aesthetics, no matter your specialty.

LEARNING OBJECTIVES:

- Resolving female genital syndromes
- Complications and most suitable treatment methods
- Achieve results for patient satisfaction

ASIAN MORPHOTYPES - SURGICAL APPROACH

Friday and Saturday in room 5

THE GREATEST THING ABOUT AN INTERNATIONAL CONGRESS IS THE EXCHANGE OF VISION AND CULTURE.

IMCAS Asia 2018 gathers the best physicians on this side of the globe. This module will present various complications, trends, tips & tricks for successfully treating Asian morphotypes.

What are the beauty trends my patient has in mind? What are the examples of different approaches to different morphotypes? How can I better adapt my treatment method to my patient’s morphology?

These questions are only the tip of the iceberg of this in-depth module that will cover ethnic morphologies from head-to-toe over the three days of the congress. We are hosting the top physicians all over Asia who will share with you their expertise on topics including rhinoplasty, blepharoplasty, breast augmentation and facelift on Asian patients. Keep you eyes and ears open towards the end of the sessions for discussions on the comparative differences between Caucasian and Asian morphotypes.

As it is with many of our sessions, the international speakers who bring to each congress their expertise and their diverse backgrounds will help you walk out of the room with a deeper understanding and a broadened spirit.

Be sure to check out these sessions!

LEARNING OBJECTIVES:
• HOW TO ACHIEVE THE MOST NATURAL RESULTS
• SURGICAL & NON-SURGICAL APPROACHES

LIVE ANATOMY CADAVER WORKSHOP

Saturday in room 1

WITH THE EXCEPTIONAL SUPPORT OF AND LIVE STREAMED FROM CHULALONGKORN HOSPITAL

Most Beloved!

This year we are bringing you a full day of live Anatomy on Cadaver Workshop!

Our celebrated Cadaver Workshop is one of the most talked about sessions throughout our congresses. Broadcasting live from Chulalongkorn Hospital, you will get a glimpse at the anatomy behind the procedures. With live patient demonstrations taking place alongside the dissections, for more a practical insight.

This is your opportunity to broaden your knowledge of injectables and suspending devices through this deeper look into anatomic structures, while learning how to reduce risks and avoid complications by identifying key anatomy regions and critical danger zones.

These 8 immersive sessions cover muscles, the vascular system and fat anatomy for breast and buttocks treatment in the morning, followed in the afternoon by sessions on the forehead, temple & periorbital, midface & nose, lip & masseter, neck & hands, as well as a look at the anatomy to optimise threads treatments.

Expert speakers will present simultaneously with the demonstrations, providing insights and concepts throughout. At the end of each demonstration, the floor will be open to debates and discussion from the audience.

LEARNING OBJECTIVES:
In-depth look into anatomy behind
Pinpoint danger zones
Improve injection & thread techniques

This module benefits from the educational support of

Here is a fact: despite one’s wishes, it’s physically impossible to attend all the sessions. Here’s another fact: WE DON’T WANT YOU TO MISS A THING!

With an ever-growing library housing over 2,500 videos from previous congresses, IMCAS Academy allows you to watch any and all sessions. Anytime, anywhere. It is also the best tool for reviewing online all that you’ve learned on-site.

This year, for the first time ever, we are releasing the mobile app for a more seamless and faster access!

THERE’S MORE THAN JUST VIDEOS! The Academy offers blog articles contributed by experts in the aesthetic field, and monthly live webinars led by international physicians.

Did you know that IMCAS Academy is also a social platform? With almost 15,000 registered members, IMCAS Academy offers you the chance to connect with your peers long after the congress is over. Our ever-expanding feature, IMCAS Alert is the combination of learning through socializing, find out why below.

Learn more by attending these sessions

The 3 sessions simulate how IMCAS Alert functions. Clinical cases related to each theme of the session will be presented followed by experts’ debate on how they would treat each case.

**S47 IMCAS ALERT**

**Lasers**
- Friday 4:30 to 5:30 PM in Room 6

IMCAS offers its participants Continuing Medical Education credits (CME), necessary for every practitioner to update and improve their skills and quality within the constantly developing field of medicine. Being an international conference IMCAS conferences have been consistently accredited at several levels in locations as Europe, USA, China, Indonesia, Hong Kong and India, among others.

The number of CME credits obtained varies according to the duration of the congress and the organism of accreditation, given that the evaluation criteria differs from one country to another.

For IMCAS Asia 2018, IMCAS has obtained accreditation for CME credits by the Thailand Medical Council (CCME), obtaining up to 18 CME for the full conference, or 6 CCME per-day attended. All Thai registered doctors are eligible to claim credits for this activity.

How to obtain the Certificate of Attendance and claim CME credits?

At the end of the conference, each registered delegate has to fill in the online evaluation form by August 15. To do so, you have to log in to your personal account and follow the instructions on IMCAS website: WWW.IMCAS.COM

Once your evaluation is submitted, your Certificate of Attendance will then be available for download on your account along with a full explanation on how to claim your CME credits.

Should you have forgotten your username and/or password to access your account, please contact us at contact@imcas.com

Delegate evaluations

The post-congress evaluations completed by attendees are invaluable in enabling us to continuously improve our congresses year after year and to ensure we offer delegates a program that matches their needs and expectations.

At IMCAS Asia 2017, the online delegate evaluation revealed the following:

- 97% of participants rated the scientific topics as good to excellent
- 95% of participants rated the scientific speakers as good to excellent
- 96% of participants would attend a future IMCAS congress

Don’t forget to fill in your online evaluation after this year’s congress!
What is a conflict of interest? (COI)

At IMCAS, a COI is considered as a situation in which a person who is lecturing during the conference has a sufficient personal and/or financial relationship with a commercial or non-commercial entity that may bias the content of his/her presentation. This is why we make public all activities and relationships that, if known to others, might be viewed as a conflict of interest, even if speakers do not believe that any conflict or bias exists. Disclosing this type of information provides a seal of transparency that protects our content.

How does IMCAS acknowledge COI?

IMCAS insists on complete independence between instructional (or scientific) courses and the industry sponsors of its congresses.

Scientific lectures are presumed to be based on objective interpretations of evidence and unbiased interpretations of facts with a fair representation of all specialties concerned in the field of aesthetics whether medical aesthetics, with plastic surgery and dermatology, or non medical aesthetics with the new development of the cosmeceutical field.

The integrity of our conference requires disclosure of the possibilities of potentially distorting influences. The audience may then judge and, if necessary, make allowance for the impact of the bias on the information being reported.

Consequently, all faculty members must openly disclose any COI that can influence the content of their presentation. Furthermore, in order to maintain the highest quality standards when organizing the congress, and to comply with international accreditation criteria, each member of the Scientific Board has to fulfill additional COI requirements and must provide a written declaration of potential or actual COI for the IMCAS congress they are participating in. All COI disclosures are available on the IMCAS website, under the relevant conference.

What if the speaker declares “no Conflict of Interest”?

This case states that neither the speaker nor any member of his/her immediate family has a significant financial arrangement or affiliation with the product, device or company involved in the congress, or any potential bias against or towards another product, device or company.

Who is concerned by the COI policy?

Anyone who is a speaker during the conference or contributes within the elaboration of the scientific program thus: All Members of the Scientific Board (Course Director, Course Coordinators, Scientific Secretaries, Members of the Scientific Committee).

All Faculty Members:
Disclosure must be made whether the speaker has or does not have a COI within his/her lecture content. This disclosure form will be automatically displayed before the presentation slides of the speaker.
IMCAS conducts educational activities, but it is also a profit-seeking business. How can this dilemma be resolved? Simply by identifying the origins of the different forms of revenue. Therefore, IMCAS welcomes funding, as long as the origins of the funds can be traced.

From our industry supporters
Companies may financially support IMCAS in two distinct ways - sponsorships and educational grants - depending on whether they have a direct influence on the program, individual sessions, subjects for discussion, content choice or Faculty members. It is for this reason that we highlight the difference between activities supported by sponsorship and those supported by an educational grant (see below for details).

By clearly explaining the difference between the two types of financial support, all concerned parties (doctors, industry representatives, foundations, government bodies, private purpose funds etc.) remain informed, aware and vigilant.

Sponsorships
Sponsorship is the financial support of an activity under the terms of a mutually beneficial exchange between the supporting company and IMCAS. The supporting company provides financial support for an activity – such as a live demonstration, a symposium, a guest lecture or a training village – and in return may present syntheses of studies or trials, practical solutions to specific patient problems and/or live demonstrations to the audience. The content of these sponsored sessions is therefore not endorsed by IMCAS.

Educational grants
An educational grant is a form of financial support where the funds are allocated to cover specific costs related to the provision of a balanced, accurate and scientifically independent activity.

The funds are used according to the donor’s wishes, however, being a unilateral gesture, it is not connected to any advertisement or participation in the content of the activity. For ethical and educational purposes, the scientific content is entirely developed by the Scientific Board, with no input from the granting company. As such, sessions supported by educational grants are eligible for CME accreditation.

From our participants
The registration fees that we charge for each of our congresses enable us to continuously improve our educational offerings in order to better fulfill your learning requirements.

The following sessions benefit from an unrestricted educational grant at IMCAS Asia
Female Genital Treatments
Friday from 2 PM to 6:30 PM in Room 3
Viveve.

Live Anatomy on Cadaver Workshop
Saturday from 8:30 AM to 6:30 PM in Room 1
Vivacy

TRAINING VILLAGES
The “Training village” is a practical hands-on training for an intimate group of participants, either for physicians, corporate professionals or distributors. It offers an in-depth and interactive learning experience than a traditional lecture on the usage to optimise the potential of the company’s product(s)/device(s), which will ultimately benefit its clinical practice and everyday business.

Official Conference Language
ENGLISH is the official language of the congress.

Insurance / Accidents, Losses or Damages
Neither the IMCAS Secretariat nor the Athenee Hotel accept any liability for damages and/or losses of any kind, which may be incurred by congress participants or by any persons accompanying them, during both the official conference and the social program. Attendees are responsible for their own property. Do not leave any property unattended in the venue. Attendees may participate in all events at their own risk. Attendees are advised to take out insurance against any loss, accidents or damages that could be incurred during the congress. Verbal agreements will not be binding unless they are confirmed in writing.

Badges
Access to the conference is subject to a number of strict rules, aiming to guarantee the scientific independence of the conference, and to preserve it from any commercial interest or influence. A strict Badge Policy has been implemented, specifying the rules related to the admittance of different areas of IMCAS conferences. According to each participant’s status (delegate, faculty, exhibitor, etc), a corresponding barcoded badge with specific access is issued. Access to the Exhibition Hall is available for all badge types while access to conference rooms is dependent upon whether one holds a physician or a non-physician badge. Following the Badge Policy is mandatory for all the participants. If it is violated, IMCAS is authorized to take measures, and may lead to the confiscation of the badge and the prohibition of access to the conference area.

Recording Policy
Recording of any kind (photographic, video, audio) during sessions is STRICTLY PROHIBITED. Violators will be banned from future congresses and their equipment will be seized.

Program
Companies and participants may copy materials for their personal use, but further copy for sale or for any other commercial purpose is prohibited without prior written permission from IMCAS.

Lunch and Coffee Breaks
Coffee, snacks and lunches are served on site all day, to allow our delegates to thoroughly visit the Exhibition Hall. Complimentary food and beverages are provided to those with Delegate and Faculty badges.

Certificate of Attendance
The evaluation platform to obtain your certificate of attendance will be open from July 14th. Login with your credentials and fill out the online evaluation form to receive your IMCAS Asia 2018 certificate of attendance. If you do not remember your credentials, you can retrieve them by contacting us at contact@imcas.com.

Login at: www.imcas.com

Daily Journal
The IMCAS Daily Journal is a mini newspaper distributed throughout the congress, highlighting the goings-on each day. It is packed with interviews, travel tips and interesting facts related to the congress.

WiFi
Complimentary wifi is available throughout the venue. Connect using:
Username: imcas2018
Password: imcas2018

Speakers’ Preview Room and Club Lounge
All sessions are equipped with computer projection. In order to ensure a successful congress, speakers are required to have their presentations delivered to the Preview Room the day before or at least 2 hours prior to the start of their session. The Preview Room is located in the Club Lounge in the Exhibition Hall.

Mobile Phones
As a courtesy to our speakers, please make sure to turn off your mobile devices while attending the sessions.
